

**INTERNATIONAL
SUMMER SCHOOL**
ON REMOTE SENSING

Dear friends,

We invite you to participate in the **International Summer School on Remote Sensing** organized by the “GIS and Remote Sensing Laboratory” of the National center “Junior academy of sciences of Ukraine”.

The course will be held from the **23rd** to the **28th** of **September 2024** via the ZOOM platform.

If you have always dreamed of looking at our planet from space, exploring all corners of the world without leaving your home – you are the one we are looking for!

What will you learn:

- How to work on public-free platforms Copernicus Browser, Google Earth Pro, Google My Maps, and NASA Giovanni
- How to detect wildfires, their development over time, and spot the burnt areas after fires
- How to monitor the disappearance of water bodies
- How to discover atmospheric changes in air quality
- How to use Remote Sensing data for emergency monitoring... and many more!

Organizational details:

- Participation is free of charge
- Age of participants: 14–18 y.o.
- The classes begin at 2 PM (CET) and end at 4 PM (CET)
- The presentation, materials, and communication will be in English. An intermediate level (B1) of English is required
- After successful completion of the school, you will get the named certificate

If you want to participate in the school, please complete the [registration form](#). The deadline is the 18th of September.

If you have any questions, do not hesitate to ask gis_rsaman.gov.ua

See you at our online school!
